

## SDD Major Project Survey for James Balajan's Screensaver Suite

Name: Sam Stacy

Date: 13/03/19

Q1. Would you use the clouds and mountains screensaver on your computer?

(Yes ☒ No)

Q2. What are some concerns that you have with the screensaver in its current state or some features that you would like to see added?

Clouds are too blocky and zoom unrealistic  
because of a black outline on the clouds.

I verify that I am the one responding to this survey, as listed by the name field above.
